

Announces a  
**CERTIFIED EXAMINERS COURSE**  
HOSTED BY THE  
**San Diego Co. Probation Department**  
San Diego, CA

The **San Diego Co. Probation Dept.** purchased their first Computer Voice Stress Analyzer® (CVSA®) in **2001** and NITV Federal Services is pleased to announce that due to the tremendous success of the CVSA at the **San Diego Co. Probation Dept.**, they will be hosting another **Certified Examiners Course** to be held **Dec. 1-5, 2025**, to train additional investigators. Over **3,000** law enforcement agencies across the U.S (**292 in CA, 282 in OH, and 231 in FL**) now rely on the CVSA for their truth verification needs, including local, state and federal agencies, as well as **ICAC Task Forces**. *Since this class is expected to fill quickly, we suggest you reserve student slots early.* Visit our Website at **[www.CVSA1.com](http://www.CVSA1.com)**

Along with the **U.S. Federal Court's Div. of Probation**, hundreds of probation departments across the U.S. utilize the CVSA to both screen applicants as well as individuals that are on probation and are required to take periodic screening exams or are suspected of violating their terms of probation

The CVSA III is FAST, RELIABLE, COST-EFFECTIVE and EASY-TO-USE. Unlike the polygraph, drugs and medical issues are not known to affect the results of the CVSA III and there are no known countermeasures to cause "inconclusive" results. The CVSA III gets to the truth and precisely identifies deception with its patented automatic scoring algorithm. The cost of the CVSA III with 2 detectives trained is 1/5 the cost of the polygraph with two students trained. The average exam time for the CVSA is approximately 1 hour.

***With 2 peer reviewed, published studies validating the accuracy of the CVSA, and over 3,000 LE users, isn't it time for your agency to acquire the 'Best-in-Class' in truth verification technology?***
