To Whom It May Concern:

The patented Computer Voice Stress Analyzer II (CVSA® II) detects, measures, and graphically displays specific stress-related components of the human voice which are associated with the psychological stress of the speaker. The CVSA® II specifications will meet or exceed those listed below:

Software Features:

CVSA® II software, with the patented FACT® Scoring System, uses advanced algorithmic processes and a built-in “learning” feature to recognize, evaluate, categorize and quantify the output graphs from the CVSA® II. The FACT® Scoring System also evaluates CVSA® II charts as “Deception Indicated” or “No Deception Indicated.” The latest version of the CVSA® II also includes an automatic voice modulation system and an automated report writing feature. The CVSA® II software comes with a NITV Federal Services-supported Limited Lifetime Warranty.
