

*** Please deliver to the Chief of Detectives/Investigations ***

ANNOUNCES TWO

CERTIFIED EXAMINERS COURSE'S

TO BE HOSTED BY THE

Orange Co. Sheriff's Office

Orlando, FL

The NITV is pleased to announce that due to the tremendous success of the Computer Voice Stress Analyzer® (CVSA®) at the **Orange Co. Sheriff's Office**, they will be training additional examiners in two Certified Examiners Course's that they will host **May 6-10** and **May 13-17, 2019**. The first CEC is for all investigators/detectives. The second CEC is for those investigators that will specialize in pre-employment exams. The **O.C.S.O.** purchased their first CVSA in **1998** and now has **8 CVSA's**. Since **187** Florida law enforcement agencies and over **2,000** across the U.S. now rely on the CVSA for their truth verification needs, including local, state and federal agencies, as well as U.S. Military Special Operations Units, and since class space is limited, creating a tremendous demand for training, we suggest that you reserve student slots early.

The CVSA was such a tremendous asset at the **Nashville Metropolitan P.D.** that they now have **21 CVSA's** and the **Atlanta P.D.** has purchased their **12th CVSA**. Additionally, the **Missouri Dept. of Public Safety** now has **52 CVSA's**, the **California Highway Patrol** has **32**, the **San Diego Co. Sheriff's Dept.** has **11**, the **New Orleans P.D.** has **29**, the **California Department of Corrections and Rehabilitation** has **56**, and most agencies have simply disbanded their polygraph units as they no longer find a need for the older, more expensive and less accurate technology. This is an instrument that has been field tested by over 2,000 law enforcement agencies throughout the U.S. over the past thirty years and has proven itself extremely accurate.

**With the recently PUBLISHED 18-year study validating the CVSA,
isn't it time to acquire the latest in technology?**

If you are planning to purchase or enroll in this course or, for more information on one of the most important investigative tool's available today, please **fax** your request to **561-798-1594**, or call us at **561-798-6280**.

The NITV is the manufacturer and sole source of the CVSA.
