

*** Please deliver to the Chief of Detectives/Investigations ***

ANNOUNCES TWO

CERTIFIED EXAMINERS COURSE'S

TO BE HOSTED BY THE

San Diego Co. Sheriff's Dept.

San Diego, CA

The NITV is pleased to announce that due to the tremendous success of the Computer Voice Stress Analyzer® (CVSA®) at the **San Diego Co. Sheriff's Dept.**, they will be training additional examiners in two Certified Examiners Course's that they will host **June 3-7** and **June 10-14, 2019**. The first CEC is for all investigators/detectives. The second CEC is for those investigators that will specialize in pre-employment exams. The **S.D.S.D.** purchased their first CVSA in **1999** and now has **10 CVSA's**. Since **208** California law enforcement agencies and over **2,500** across the U.S. now rely on the CVSA for their truth verification needs and since class space is limited, we suggest that you reserve student slots early.

The forward-thinking agencies that utilize the CVSA have found it to be a tremendous asset for Criminal and Background Investigations and they include the **California Highway Patrol, Illinois State Police, New Orleans P.D., Atlanta P.D., Kansas City P.D., Missouri Dept. of Public Safety, San Diego Co. Sheriff's Department, Orange County (FL) Sheriff's Office, Salt Lake City P.D.,** and the **US Federal Courts**. Most agencies have simply disbanded their polygraph units as they no longer find a need for the older, more expensive and less accurate technology. This is an instrument that has been field tested by over 2,500 law enforcement agencies throughout the U.S. over the past thirty years and has proven itself extremely accurate, and easy to learn and use.

With the recently PUBLISHED 18-year study validating the accuracy of the CVSA at 98%, isn't it time to acquire the latest in technology?

If you are planning to purchase or enroll in this course or, for more information on one of the most important investigative tool's available today, please **fax** your request to **561-798-1594**, or call us at **561-798-6280**.

The NITV is the manufacturer and sole source of the CVSA. Visit us at CVSA1.com
