

FEDERAL SERVICES

Announces a
CERTIFIED EXAMINERS COURSE
HOSTED BY THE
California Highway Patrol
Sacramento, CA

NITV Federal Services is pleased to announce that due to the tremendous success of the **Computer Voice Stress Analyzer® (CVSA®)** at the **California Highway Patrol**, they will be hosting another **Certified Examiners Course** to be held **Jan. 27 - 31, 2020**, to train additional examiners. Over **2,500** law enforcement agencies across the U.S (**212 in CA**) now rely on the **CVSA** for their truth verification needs, including local, state and federal agencies, as well as the **US Federal Courts**. Since class space is limited, we suggest you reserve student slots early. Visit our Website at www.CVSA1.com

The forward-thinking agencies that utilize the **CVSA** have found it to be a tremendous asset for Criminal and Background Investigations. Most have utilized the **CVSA** for many years and they include the **California Highway Patrol - since 1999-32 CVSA's**, **Illinois State Police - 2019-3**, **New Orleans P.D. - 1996-29**, **Atlanta P.D. - 2003-14**, **Nashville P.D. - 2004-26**, **Kansas City P.D. - 2018-5**, **Missouri Dept. of Public Safety - 1998-52**, **Florida Div. of Fire and Arson - 2003-12**, **San Diego Co. S.O. - 1999-13**, **California Dept. of Corrections and Rehabilitation - 2017-58**, and the **US Federal Courts - 2010-15**. Most agencies have simply disbanded their polygraph units as they no longer find a need for the older, more expensive and less accurate technology.

The new **CVSA III** is **FAST, RELIABLE, COST-EFFECTIVE** and **EASY-TO-USE**. Unlike the polygraph, drugs and medical issues do not affect the results of the **CVSA III** and there are no known countermeasures to cause “inconclusive” results. The **CVSA III** gets to the truth and precisely identifies deception with an accuracy rate greater than 98%. The cost of the **CVSA III** is 1/3 less than the polygraph and the average exam time is **1 hour**.

With the recently published 18-year study validating the accuracy of the CVSA at 98%, isn't it time to acquire the latest in truth verification technology?
