

FEDERAL SERVICES

Announces a

CERTIFIED EXAMINERS COURSE

HOSTED BY THE

Plainfield Police Department

Indianapolis, IN

NITV Federal Services is pleased to announce that due to the tremendous success of the Computer Voice Stress Analyzer® (CVSA®) at the **Plainfield Police Dept.**, they will be hosting another **Certified Examiners Course** to be held **June 21 - 25, 2021**, to train additional examiners. Over 2,500 law enforcement agencies across the U.S (126 in IN, 221 in OH, and 187 in MO) now rely on the CVSA for their truth verification needs, including local, state and federal agencies, as well as the **US Federal Courts**. Since class space is limited, we suggest you reserve student slots early. Visit our Website at www.CVSA1.com

The forward-thinking agencies that utilize the CVSA have found it to be a tremendous asset for Criminal and Background Investigations. Most have utilized the CVSA for many years and they include the **California Highway Patrol - since 1999-32 CVSA's**, **Illinois State Police - 2019-3**, **New Orleans P.D. - 1996-29**, **Atlanta P.D. - 2003-14**, **Nashville P.D. - 2004-26**, **Kansas City P.D. - 2018-5**, **Missouri Dept. of Public Safety - 1998-52**, **Florida Div. of Investigation and Forensic Services - 2003-12**, **San Diego Co. S.O. - 1999-13**, **California Dept. of Corrections and Rehabilitation - 2017-58**, and the **US Federal Courts - 2010-15**. Most agencies have simply disbanded their polygraph units as they no longer find a need for the older, more expensive and less accurate technology.

The new CVSA III is FAST, RELIABLE, COST-EFFECTIVE and EASY-TO-USE. Unlike the polygraph, drugs and medical issues do not affect the results of the CVSA III and there are no known countermeasures to cause “inconclusive” results. The CVSA III gets to the truth and precisely identifies deception with an accuracy rate of 98%. The cost of the CVSA III is 1/3 less than the polygraph and the average exam time is 1 hour.

With the recently published 18-year study validating the accuracy of the CVSA at 98%, isn't it time to acquire the latest in truth verification technology?
