

FEDERAL SERVICES

Announces a

CERTIFIED EXAMINERS COURSE

HOSTED BY THE

Columbus Div. of Police/Franklin Co. Sheriff's Office

Columbus, OH

NITV Federal Services is pleased to announce that due to the tremendous success of the Computer Voice Stress Analyzer® (CVSA®) at the **Columbus Div. of Police** and the **Franklin Co. Sheriff's Office**, they will be hosting another **Certified Examiners Course** to be held **Sept. 20-24, 2021**, to train additional examiners. Over 2,500 law enforcement agencies across the U.S (221 in OH, 142 in IN, and 73 in PA) now rely on the CVSA for their truth verification needs, including local, state and federal agencies, as well as the **US Federal Courts Div. of Parole and Probation**. Since class space is limited, we suggest you reserve student slots early. Visit our Website at www.CVSA1.com

The forward-thinking agencies that utilize the CVSA have found it to be a tremendous asset for Criminal and Background Investigations. Most have utilized the CVSA for many years and they include the **California Highway Patrol - since 1999-32 CVSA's**, **Illinois State Police - 2019-4**, **New Orleans P.D. - 1996-29**, **Atlanta P.D. - 2003-14**, **Nashville P.D. - 2004-26**, **Kansas City P.D. - 2018-5**, **Missouri Dept. of Public Safety - 1998-52**, **Florida Div. of Investigation and Forensic Services - 2003-12**, **San Diego Co. S.O. - 1999-13**, **California Dept. of Corrections and Rehabilitation - 2017-58**, and the **US Federal Courts - 2010-15**. Most agencies have simply disbanded their polygraph units as they no longer find a need for the older, more expensive and less accurate technology.

The new CVSA III is FAST, RELIABLE, COST-EFFECTIVE and EASY-TO-USE. Unlike the polygraph, drugs and medical issues are not known to affect the results of the CVSA III and there are no known countermeasures to cause "inconclusive" results. The CVSA III gets to the truth and precisely identifies deception with an accuracy rate of 98%. The cost of the CVSA III is 1/3 less than the polygraph and the average exam time is 1 hour.

With 2 published, peer reviewed studies validating the accuracy of the CVSA at 98%, isn't it time to acquire the latest in truth verification technology?
