

FEDERAL SERVICES

Announces 2

CERTIFIED EXAMINERS COURSE'S

HOSTED BY THE

Orange Co. Sheriff's Office

Orlando, FL

NITV Federal Services is pleased to announce that due to the tremendous success of the Computer Voice Stress Analyzer® (CVSA®) at the **Orange Co. Sheriff's Office**, they will be hosting two **Certified Examiners Course's** that they will host **Oct. 4-8, and Oct. 11-15, 2021**. The first CEC is for **all investigators/detectives**. The second CEC is for those that will specialize in pre-employment examinations. Over **2,500** law enforcement agencies across the U.S (**188 in FL, 116 in GA, and 46 in AL**) now rely on the CVSA for their truth verification needs, including local, state and federal agencies, as well as the **US Federal Courts Div. of Parole & Probation**. Since class space is limited, we suggest you reserve student slots early. Visit our Website at **www.CVSA1.com**

The forward-thinking agencies that utilize the CVSA have found it to be a tremendous asset for Criminal and Background Investigations. Most have utilized the CVSA for many years and they include the **California Highway Patrol - since 1999-32 CVSA's, Illinois State Police – 2019-5, New Orleans P.D. - 1996-29, Atlanta P.D. - 2003-14, Nashville P.D.- 2004-26, Kansas City P.D. - 2018-5, Missouri Dept. of Public Safety - 1998-52, Florida Div. of Investigation and Forensic Services - 2003-12, San Diego Co. S.O. - 1999-13, California Dept. of Corrections and Rehabilitation - 2017-58, and the US Federal Courts - 2010-15**. Most agencies have simply disbanded their polygraph units as they no longer find a need for the older, more expensive and less accurate technology.

The new CVSA III is FAST, RELIABLE, COST-EFFECTIVE and EASY-TO-USE. Unlike the polygraph, drugs and medical issues are not known to affect the results of the CVSA III and there are no known countermeasures to cause “inconclusive” results. The CVSA III gets to the truth and precisely identifies deception with an accuracy rate of 98%. The cost of the CVSA III is 1/3 less than the polygraph and the average exam time is 1 hour.

With 2 published, peer reviewed studies validating the accuracy of the CVSA at 98%, isn't it time to acquire the latest in truth verification technology?
