

FEDERAL SERVICES

Announces a

CERTIFIED EXAMINERS COURSE

HOSTED BY THE

Prince George's Co. Police Dept.

Washington, DC

NITV Federal Services is pleased to announce that due to the tremendous success of the Computer Voice Stress Analyzer® (CVSA®) at the **Prince George's Co. P.D.**, they will be hosting another **Certified Examiners Course** to be held **Oct. 18-22, 2021**, to train additional examiners. With approximately **2,500** law enforcement agencies across the U.S (**235 in CA, 197 in MO, and 221 in OH**) now rely on the CVSA for their truth verification needs, including local, state and federal agencies, as well as the **US Probation and Pretrial Services**. Since class space is limited, we suggest you reserve student slots early. Visit our Website at www.CVSA1.com

The forward-thinking agencies that utilize the CVSA have found it to be a tremendous asset for Criminal and Background Investigations. Most have utilized the CVSA for many years and they include the **California Highway Patrol - since 1999-32 CVSA's, Illinois State Police - 2019-5, New Orleans P.D. - 1996-29, Atlanta P.D. - 2003-14, Nashville P.D. - 2004-26, Kansas City P.D. - 2018-5, Missouri Dept. of Public Safety - 1998-52, Florida Div. of Investigation and Forensic Services - 2003-12, San Diego Co. S.O. - 1999-13, California Dept. of Corrections and Rehabilitation - 2017-58, and the US Probation - 2010-15**. Most agencies have simply disbanded their polygraph units as they no longer find a need for the older technology.

The new CVSA III is FAST, RELIABLE, COST-EFFECTIVE and EASY-TO-USE. Unlike the polygraph, drugs and medical issues are not known to affect the results of the CVSA III and there are no known countermeasures to cause "inconclusive" results. The CVSA III gets to the truth and precisely identifies deception. The cost of the CVSA III is about 1/3 less than the polygraph and the average exam time is approximately 1 hour.

With approximately 2,500 agencies now utilizing the CVSA, isn't it time to acquire the latest in truth verification technology?
