

FEDERAL SERVICES

Announces a

**CERTIFIED EXAMINERS COURSE**

HOSTED BY THE

# Salt Lake City Police Department

Salt Lake City, UT

The **Salt Lake City P.D.** purchased their first Computer Voice Stress Analyzer® (CVSA®) in **2006** and NFS is pleased to announce that due to the tremendous success of the CVSA at the **S.L.C.P.D.**, they will be hosting another **Certified Examiners Course** to be held **May 8-12, 2023**, to train additional examiners. Approximately **2,800** law enforcement agencies across the U.S (**267**in CA, **249** in OH, and **211**in MO) now rely on the CVSA for their truth verification needs, including local, state and federal agencies, including **ICAC Task Forces**. Since this class will fill quickly, we suggest you reserve student slots early. Visit our Website at **www.CVSA1.com**

The forward-thinking agencies that utilize the CVSA have found it to be a tremendous asset for Criminal and Background Investigations. Most have utilized the CVSA for many years and they include the **California Highway Patrol - since 1999-32 CVSA's**, **Illinois State Police - 2019-10**, **New Orleans P.D. - 1996-29**, **Atlanta P.D. - 2003-14**, **Nashville P.D. - 2004-26**, **Kansas City P.D. - 2018-5**, **Missouri Dept. of Public Safety - 1998-52**, **Florida Div. of Investigative and Forensic Services - 2003-12**, **San Diego Co. S.O. - 1999-13**, **California Dept. of Corrections and Rehabilitation - 2017-58**, and the **US Federal Courts - 2010-15**. Most agencies have simply disbanded their polygraph units as they no longer find a need for the older, more expensive and less accurate technology.

The CVSA III is FAST, RELIABLE, COST-EFFECTIVE and EASY-TO-USE. Unlike the polygraph, drugs and medical issues are not known to affect the results of the CVSA III and there are no known countermeasures to cause “inconclusive” results. The cost of the CVSA III with 2 detectives trained is 1/6 the cost of the polygraph with two students trained. The average exam time for the CVSA is approximately 1 hour – the polygraph is 2-3 hrs.

**With 2 peer reviewed, published studies validating the accuracy of the CVSA, isn't it time to acquire the latest in truth verification technology?**
