

FEDERAL SERVICES

Announces a
CERTIFIED EXAMINERS COURSE
In

Guatemala City, Guatemala

NITV Federal Services is pleased to announce that due to the tremendous success of the Computer Voice Stress Analyzer in the **Guatemala**, NFS will be conducting another **Certified Examiners Course** to be held **May 29 - June 2, 2023**. Currently approximately 2,800 law enforcement agencies across the U.S (262 in CA, 249 in OH, and 211 in MO) now rely on the CVSA for their truth verification needs, including local, state and federal agencies, including ICAC Task Forces. Since class space is limited, we suggest you reserve student slots early. Visit our Web site at www.CVSA1.com

The forward-thinking agencies that utilize the CVSA have found it to be a tremendous asset for **Criminal and Background** Investigations. Most have utilized the CVSA for many years and they include the **California Highway Patrol - since 1999-32 CVSA's, Illinois State Police - 2019-10, New Orleans P.D. - 1996-29, Atlanta P.D. - 2003-14, Nashville P.D. - 2004-26, Kansas City P.D. - 2018-5, Missouri Dept. of Public Safety - 1998-52, Florida Div. of Investigation and Forensic Services - 2003-12, San Diego Co. S.O. - 1999-13, and the California Dept. of Corrections and Rehabilitation - 2017-58**. Most agencies have simply discontinued the polygraph as they no longer find a need for the older technology.

The new CVSA III is FAST, RELIABLE, COST-EFFECTIVE and EASY-TO-USE. Unlike the polygraph, drugs and medical issues are not known to affect the results of the CVSA III and there are no known countermeasures to cause "inconclusive" results. The CVSA III gets to the truth and precisely identifies deception with its automatic, patented scoring algorithm. The cost of the CVSA III with two examiners trained is 1/6 the cost of the polygraph with two examiners trained. The average exam time for the CVSA is approximately 1 hour. The average polygraph exam time is 2-3 hrs.

With 2 published, peer reviewed studies validating the CVSA, isn't it time to acquire the latest in truth verification technology?
