

FEDERAL SERVICES

Announces a
CERTIFIED EXAMINERS COURSE

In

Quito, Ecuador

NITV Federal Services is pleased to announce that due to the tremendous success of the Computer Voice Stress Analyzer in a number of government agencies in **Ecuador**, NFS will be conducting another **Certified Examiners Course** to be held **June 19-23, 2023**. Currently approximately **2,800** US law enforcement agencies across the U.S (**262 in CA, 252 in OH, and 211 in MO**) and many foreign government agencies now rely on the CVSA for their truth verification needs, including local, state and federal agencies, including ICAC Task Forces. *Since we expect this class to fill quickly, we suggest you reserve student slots early.* Visit our Web site at **www.CVSA1.com**

The forward-thinking agencies that utilize the CVSA have found it to be a tremendous asset for **Criminal and Background Investigations** and the CVSA can also analyze old taped interviews to solve **Cold Cases**. Most have utilized the CVSA for many years and they include the **California Highway Patrol - since 1999-32 CVSA's, Illinois State Police - 2019-10, New Orleans P.D. - 1996-29, Atlanta P.D. - 2003-14, Nashville P.D. - 2004-26, Kansas City P.D. - 2018-5, Missouri Dept. of Public Safety - 1998-52, Florida Div. of Investigation and Forensic Services - 2003-12, San Diego Co. S.O. - 1999-13, and the California Dept. of Corrections and Rehabilitation - 2017-58.**

The new CVSA III is FAST, RELIABLE, COST-EFFECTIVE and EASY-TO-USE. Unlike the polygraph, drugs and medical issues are not known to affect the results of the CVSA III and there are no known countermeasures to cause “inconclusive” results. The CVSA III gets to the truth and precisely identifies deception with its automatic, patented scoring algorithm. The cost of the CVSA III with two examiners trained is 1/6 the cost of the polygraph with two examiners trained. The average exam time for the CVSA is approximately 1 hour. The average polygraph exam time is 2-3 hrs.

With 2 published, peer reviewed studies validating the CVSA, isn't it time to acquire the latest in truth verification technology?
