

FEDERAL SERVICES

Announces a

CERTIFIED EXAMINERS COURSE

HOSTED BY THE

Kansas City P.D & Platte Co. Sheriff's Dept.

Kansas City, MO

The **Kansas City P.D.** purchased its first Computer Voice Stress Analyzer® (CVSA®) in **2017** and the **Platte Co. Sheriff's Dept.** in **2008**. Due to the tremendous success of the CVSA at these agencies, NITV Federal Services is pleased to announce that they will be co-hosting another **Certified Examiners Course** to be held **July 22-26, 2024**, to train additional examiners. Nearly **3,000** law enforcement agencies across the U.S (**146 in GA, 211 in FL, 273 in CA, 218 in MO and 262 in OH**) now rely on the CVSA for their truth verification needs, including local, state and federal agencies. *Since this class is expected to fill quickly, we suggest you reserve student slots early.* Visit our website at www.CVSA1.com

The forward-thinking agencies that utilize the CVSA have found it to be a tremendous asset for **Criminal and Background Investigations** and the **CVSA can also analyze old taped interviews to solve Cold Cases**. Most have utilized the CVSA for many years and they include the **California Highway Patrol - since 1999-32 CVSA's, Illinois State Police - 2019-10, New Orleans P.D. - 1996-29, Atlanta P.D. - 2003-14, Nashville P.D. - 2004-26, Kansas City P.D. - 2018-5, Missouri Dept. of Public Safety - 1998-52, Florida Div. of Investigation and Forensic Services - 2003-12, San Diego Co. S.O. - 1999-13, and the California Dept. of Corrections and Rehabilitation - 2017-58.**

The CVSA III is FAST, RELIABLE, COST-EFFECTIVE and EASY-TO-USE. Unlike the polygraph, drugs and medical issues are not known to affect the results of the CVSA III and there are no known countermeasures to cause "inconclusive" results. The cost of the CVSA III with 2 investigators trained is about 1/6 the cost of the polygraph with 2 students trained. The average CVSA exam time is approximately 1 hr. and the average exam time for the polygraph is 2 hrs.

With 2 published, peer reviewed studies validating the accuracy of the CVSA, and nearly 3,000 LE users, isn't it time for your agency to acquire the latest in truth verification technology?
